

78. (Previously presented) The method of claim 58 wherein said method is used to document the expression repertoire of KIR immunoreceptors.

79. (Previously presented) The method of claim 59 wherein said method is used to document the genotypic repertoire of KAR immunoreceptors.

80. (Previously presented) The method of claim 59 wherein said method is used to document the expression repertoire of KAR immunoreceptors.

81. (Previously presented) The method of claim 58, 59, 60 or 61 wherein the nucleic acid sample is of human or animal origin.

82. (Previously presented) The method of claim 58, 59, 60 or 61 wherein the nucleic acid sample is derived from blood, bone marrow, lymphocytes, NK and/or T cells or transgenic cells.

83. (Previously presented) The method of claim 58, 59, 60 or 61 wherein the nucleic acid sample is a genomic or cDNA library.

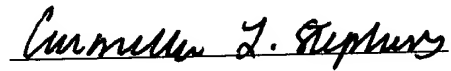

#### R E M A R K S

Entry of the foregoing amendments into the file of the above identified application is respectfully requested. The Applicants believe that the invention described and defined by the pending claims is patentable over the rejections of the Examiner.

Withdrawal of all rejections and reconsideration of the amended claims is requested. An early allowance is earnestly sought.

Respectfully submitted,

Dated: October 2, 2003
